

PRODUCT STEWARDSHIP POLICY

Product stewardship is an intrinsic part of NRB that ensures products with minimum health, safety, environmental and social impacts throughout all the phases of its life cycle.

This policy is applicable to all NRB employees, suppliers, customers, contract workforce and all other relevant stakeholders of NRB

NRB will strive for excellence in sustainable processes, products and practices to create long-term value for our stakeholders, while conserving resources, protecting environment, nurturing our people and enriching societal wellbeing.

To achieve this, we shall:

- Comply with all applicable laws and regulations
- Seek to minimize the impact on Environment and Society by reduction in our carbon footprint, by conservation of key resources and invest in research and development to design innovative & safer products
- Assure safety and optimal resource use over the life-cycle of product, and in the furtherance of this objective disseminate and promote awareness of the responsibilities to everyone connected with it throughout the life cycle of the product. Promote recollection, recycling and environmental friendly disposal by consumers at the end of the life cycle of its products
- Promote engagement with stakeholders and suppliers to take accountability for the sustainability of the product life cycle to avoid health, safety, environmental and social impact of our products
- Promote safe use of products by disseminating information to our employees, contractors and customers about the health and safety aspects of product
- Recognize and respect traditional knowledge and other forms of intellectual property rights
- Take steps to procure goods and services from local and small producers
- Consider health, safety and environmental impacts in the innovation, design, development, sourcing, manufacture, use and disposal of our products
- Promote the principles of waste prevention, reduction, reuse, recycling and recovery to minimize waste generation and environmentally friendly disposal by consumers at end of life of products
